Cinematic Chatter

By Malcolm Millar

Hello everybody! Movie star Jane Wyman has reached the point in life that comes to all mothers when they can no longer call their clothes their own. Jane's daughter, Maureen, is responsible, of course, for this state of affairs. Maureen is going on thirteen and she is tall for her age. "Maureen doesn't quite take the blouse off my back," said Miss Wyman. "She does quite well for herself by taking them off the closet hooks. She wears all my clothes now including my shoes. When I look for a dress or sweater and find it missing I know it's gone with Maureen. Usually I don't mind, so long as she hasn't worn any of my high-heeled shoes. I still draw the line on high heels for her. Occasionally, however, I am caught short in a way I don't like." For example, the star said she had been counting on wearing a certain pair

of fur lined boots to an afternoon location. "I knew we'd be working outside until late at night," she said, "and that it would wind up being cold as blue blazes. Those fur lined boots not only are warm but they happen to be my lucky boots. Don't ask me why they're lucky, because I can't even remember when I started considering them that. I only know they are. Anyway I told Maureen again and again never to take my lucky boots. When I got ready to leave for location, however, they were gone. When I brought my cold toes home late that night I found the boots back in my closet." We don't need to add that Mother and daughter had words. See you at the movies—Mal.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

Nassau Flights Are Available From East Coast Cities

FORT LAUDERDALE—Flight passenger traffic between Fort Lauderdale, West Palm Beach and Nassau, Bahamas via Mackey Airlines has shown a very large increase this season over 1953 figures, it was disclosed today by Joseph C. Mackey, airline president.

Last January the airline carried 1,178 passengers to Nassau, while this year the same month accounted for 1,737, an increase of 47 per cent.

February's figures showed an even larger increase with 2,794 being flown in 1954 as compared to 1,800 in 1953 for that month, an increase of 55 per cent.

During the first week in March the traffic count jumped again, Mackey stated, making it certain that 1953 records would be smashed for the period.

The airline now has a petition pending for extending its flight schedule to include the Tampa-St. Petersburg area.

Since it was discovered in 1948, Florida's Sunnland oil field in Collier County, (12 wells), has produced a total of 3,307,753 barrels of oil.

Winn & Lovett Grocery Company, Florida's leading grocery chain, reported sales of \$19,453,261 for four weeks ending Feb. 6, an increase of 16.52 per cent over last year.

Cypress Gardens reports a 10 per cent increase in attendance this season over last.

Phone Company In Expansion Program

Telephone expansion in the South during 1953 continued to reach higher levels of achievement, but the impact of the high cost of providing service remains a major problem, according to the annual report of the Southern Bell Telephone Company released in Pahokee today.

More than a quarter-million Southern Bell telephones were added during the year, bringing the total in service past the 4,250,000 mark. Southern Bell serves Pahokee and 1,033 other exchanges it was released here by E. F. Reddy, nine Southern States. The report District Manager of the Company.

Investing in new construction of telephone plant and service improvements at the rate of more than \$3,600,000 per week, Southern Bell spent a record \$182,550,704 to meet the continuing demand for telephone service during 1953. This was the largest amount ever spent by the Company in a one-year period and brought the cost of its post-war expansion program to well over a billion dollars.

The report, made by President Fred J. Turner for the Board of Directors, pointed out that this expansion program reflected both the great demand for telephone service and the company's faith in the economic growth and future of the South.

As the demand for service continues strong, the report noted, it is necessary that the Company realize adequate earnings to attract on reasonable terms the large sums of investors' capital required for continued expansion, or its ability to continue to meet the demand will be seriously hampered.

Christian Science Group Of Canal Point

Victory over human limitations comes as we learn that man's true selfhood is spiritual, not material, and that he lives in Spirit, God, not in matter—this is a leading point in the Lesson-Sermon to be heard at Christian Science services Sunday.

In the Lesson-Sermon on the subject of "Matter" the following Bible verses will be read from Isaiah:

"Seek ye the Lord while he may be found, call ye upon him while he is near: Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon. For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord" (55:6-8).

The following passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will also be read:

"The perfect Mind sends forth perfection, for God is Mind. Imperfect mortal mind sends forth its own resemblances, of which the wise man said, 'All is vanity'" (239:29).

The Golden Text is from Isaiah: "The grass withereth, the flower fadeth: but the word of our God shall stand for ever" (40:8).

Baptists Will Show Billy Graham Film

OILTOWN, U. S. A., another Billy Graham Film production, will be shown in the Pahokee High School Auditorium on March 25th. Like the production of Mr. Texas, Oiltown, U. S. A. is filmed in natural color.

Starring Colleen Townsend, Paul Power and Robert Clarke with a supporting cast of Georgia Lee, Ralph Ward, Rodd Harper and Cindy Walker the film portrays the moving story of a man whose only God was wealth, and power as he is brought face to face with the religious experience of his own daughter, the one person who meant more to him than life itself.

It's great in its music with George Beverly Shea, America's beloved gospel singer, together with Redd Harper and Cindy Walker sharing in new songs, together with old familiar favorites, backed by a choir of 1,000 voices.

Many remember Colleen Townsend, star of the picture, as the promising young movie actress who, several years ago gave up her screen career to enter Christian service. Since then she has attended a Christian college and recently married a minister she met while a student there. Because she is active in Christian work, Billy Graham turned to her to play the lead in this production.

Though sponsored by the First Baptist Church, the film will be shown at 8 p. m. Thursday, March 25th, in the High School Auditorium. In announcing the picture, local religious leaders say this one is

another "tops in religious films." No admission charge will be made but an offering will be taken for Billy Graham Film Production.
